STUDENT REPRESENTATIVE COUNCIL (S.R.C.)

The S.R.C. will consist of one elected student representatives from each class and a 'stand-in' in case of absence. Elections to the S.R.C. are usually held in the first few weeks of the school year. The previous year's S.R.C representatives cannot be re-elected for two years.

The Purpose of the S.R.C.

The S.R.C. is an elected student body who represents the views of all students. The views, ideas and suggestions communicated to the S.R.C. meetings are discussed and considered by the S.R.C. Where necessary the School Staff may then act on the views, ideas and suggestions made by the larger student body.

The S.R.C gives insight into the decision making process that occurs at schools.

The S.R.C allows the children in each year level to focus on the positives within the school as they consider 4 areas for discussions during class meetings. They are as follows:

1. Things we are celebrating
2. Issues/concerns on the yard
3. Things we are thankful for
4. Recommendations to the Principal

The Role of the S.R.C.

- to value student input and ideas
- to be responsible S.R.C. members
- to represent the views/opinions of the class
- to help build a collaborative school environment
- to set a good example
- to call regular class meetings
- to help improve the behaviour of the children in the school
• to listen to the ideas of other people
• to take important information from the S.R.C. meetings back to classroom meetings
• to take important information from the classroom back to the S.R.C. meeting
• to improve communication lines between students, teachers and Principal
• to give different children a leadership experience

EVALUATION

Each year we look at the workings of the S.R.C in particular the SRC Shee; the children use to run their meetings. In addition we look at how the S.R.C fits into the workings of the Making Jesus Real program and the Student Welfare programs at our school.
